EDUCATION

Vellore Institute of Technology (April 2026)
B.Tech. Computer Science & Engineering | CGPA: 9.0

Shri Gulab Rai Montessori Sr. Sec. School (June 2022)
Higher Secondary | CGPA: 9.73

Shri Gulab Rai Montessori Sr. Sec. School (July 2020)
Secondary | CGPA: 9.81

SKILLS

Languages: Java, SQL, Python.
Frameworks/Tech: Django, HTML5, CSS3, JavaScript, MERN Stack, LLM APIs, Scikit-Learn.
Tools: Git, GitHub, MySQL, Figma, AWS Cloud Solutions, Microsoft Excel, API Design, Overleaf.
Core Competencies: Data Structures & Algorithms, Software Development, OS, CN, DBMS, OOPs, REST API Architecture, Algorithmic Thinking.

PROJECTS

CropGuard (Oct, 2024 – April 2025)

- Engineered a Deep Learning web application employing Python and Django to identify crop diseases from leaf images, enabling early diagnosis and projected to minimize crop loss by an estimated 35-40%.
- Implemented a seamless workflow within the Django framework for handling image uploads, executing model inference, and rendering prediction results, streamlining the user experience, and minimizing latency.
- Integrated a 97% accurate Convolutional Neural Network (CNN) into a Django backend while architecting a responsive HTML5/CSS3 UI that achieved 90% cross-device compatibility, enabling seamless real-time disease diagnosis.
- Tech Stack: Python, Django, CNN, Deep Learning, ML Libraries, GitHub, LLM Notebook, HTML5, and CSS3.

RATIONSEVA (Feb, 2024 – May 2024)

- Transitioned the organization to a fully digital ration distribution system by developing an intuitive online interface, resulting in improved efficiency and security while enhancing accessibility for multiple users.
- Created and deployed a robust digital solution using Python and Django, achieving 99.9% uptime while ensuring scalability for over concurrent users in high-load environments.
- Partnered with cross-functional teams to implement a scalable digital ration system, reducing overhead costs by 45% through automation and identifying 3 key process optimizations that significantly enhanced user satisfaction.
- Tech Stack: Python, Django, Git, Supabase, Automation and Real-time Tracking systems.

ACHIEVEMENTS AND EXTRA-CURRICULARS

ACHIEVEMENT

- Secured a finalist position in HackVega, a nationwide hackathon, demonstrating acute analytical reasoning and rapid prototyping skills under pressure.
- Secured an 'A' Grade with a score of 90% in the AWS Solutions Architect - Associate Certification Program from Ethnus, showcasing proficiency in cloud solutions.
- Achieved an 'A' Grade with a score of 93% in the MERN Full Stack Certification Program from Ethnus, in association with VIT University.

EXTRA-CURRICULAR

National Service Scheme, VIT University

- Spearheaded planning for women's empowerment events during "International Women's Day," resulting in increased local participation and heightened awareness of gender equality issues among villagers.
- Impacted around 100 residents with a skit that promoted gender equality and social change by bringing attention to women's rights, equality, and empowerment.
- Directed health check-up camps, leading a 10-member volunteer team to facilitate medical screenings for 120+ students and utilizing strong coordination skills to maintain an efficient workflow.

ADDITIONAL INFORMATION

- **Languages:** English, Hindi, and Punjabi.
- **Interests:** Gaming, Football, Motorsports Racing, R&B Music, Public Speaking.
